Edge-Lit Custom Signage

LEDCONN
— Be the FOCUS —

Green + Fashion + Style

This new generation of signage gives Quality of Light that traditional lighting cannot provide. Not only it is ulta slim as 1/4", this design itself conveys messages of Fashion, Trendy & Eco-friendly.
Be your Style & your Brand!

Skin It!

Whether it's traditional moving sign or digital displays, dress it up and attract more eyeballs with this 1/4" illuminated skin. Let it be part of the marketing campaigne, leading the path to purchase!

Visual Impact

The VISUAL generation is here!
Illumination truly tranforms Visual Merchandising & Window Displays. The LED Light is embedded to create desired lighting effects. Let it be colorful, shiny, and attractive!

The Transformation

Interactively working with kiosk & fixture manufacturers and designers, LEDCONN proudly tranform every signage from bulky to slim, from energy-consuming to eco-friendly. Recognizing the great importance of brand recognition, our illuminated signs are guaranteed to be spectacular!
